Hotel Inspired by Legends and Myths

Mövenpick Resort Phan Thiet is an exciting hide away, perfectly located overlooking Tien Thanh beach in this emerging destination. A unique resort taken inspiration from the Port Royal Castle used to be the “capital” of the legendary Caribbean pirates.

RESORT PHAN THIET

Mövenpick Resort Phan Thiet is inspired by Port Royal Castle which used to be the "capital" of the legendary Caribbean pirates. With the typical Dutch colonial architectural style with open and liberal domes, the metaphor of the Pirate ship makes the space more mysterious and luxurious.

The image shows a spacious living room with a modern nautical theme. A light grey sectional sofa is positioned against a white wall, adorned with several pillows in shades of grey and blue. In front of the sofa is a long, low wooden coffee table with a dark metal frame, holding a small vase of white flowers and a plate of pastries. To the left of the sofa is a light blue ottoman. The floor is made of wide-plank wood. In the background, a large wooden cabinet with multiple drawers and doors, featuring dark metal handles, stands against a grey wall. Above the cabinet are several framed pictures, including a circular mirror and a framed portrait. To the right of the cabinet, a small round wooden table holds a few items. On the far left, a tall wooden cabinet holds a television. The ceiling features exposed wooden beams. Two framed pictures of sailing ships hang on the wall above the sofa. A patterned rug is partially visible under the coffee table.
