

TIDES OF TRANSFORMATION

Festive Programme 2025/2026

There are moments when the world seems to pause—just long enough for something new to begin.

Here transformation unfolds not in haste, but in harmony with the rhythm of the sea and sky. Beneath the starlit heavens and glowing tides, change reveals itself quietly—through soft awakenings and silent renewal.

This season, we honour not only the joy of celebration, but the quiet power of becoming.

It is seen in the bioluminescent shimmer that graces our lagoon, the curl of a petal at dawn, and the gentle unfolding of who we are—returning, once more, to our essence.

20 December, 2025

- 10.00 hrs
